HY 2019 Results Overview:

The holding company and its subsidiaries recorded a total PBT of N8.8 billion, a 5% QoQ and 24% YoY growth driven mainly by increase in net interest income. However, growth in Fees & Commissions could not fully offset decline in Trading Income and, consequently, there was a marginal decline in Non Interest Income QoQ and YoY.

The Commercial and Retail Banking Group grew its PBT by 1.5% QoQ to N3.97bn from N3.91bn in 1Q19, and 54.3% YoY, as a result of an increase in net interest income and non- interest income and a decline in net impairment charges. With a 40% contribution, personal banking continues to be a major driver of net revenue for the Commercial and Retail Banking Group. The impact of digital financial services also continues to grow as mobile banking customers increased by 481,000 to 3.6 million and 67% of our total 5.3 million customers in 2Q19.

The Investment Banking division's (FCMB Capital Markets Ltd and CSL Stockbrokers Ltd) PBT grew by 610% QoQ, due to the completion of some financial advisory and capital raising pipeline transactions.

The Asset & Wealth Management Group (FCMB Pensions Limited, First City Asset Management Limited and FCMB Trustees Limited) grew its AUM by 5% QoQ and by 23% YoY, to N357bn. Our Pensions business contributed 83% of AUM, down from 85% recorded in the previous quarter. The Group's PBT of N700 million accounted for 8% of overall PBT.

The second half of 2019 should see continued growth along all key indices for the group, driven by anticipated growth in our balance sheet, customer numbers and assets under management, as well as, rising commissions from our digital financial services.
